Art Unit: 3739

The following is an examiner's statement of reasons for allowance: The claims are allowable over the art of record due to the recitation of a light source mounted on the shield and an electrical circuit coupled to said light source and mounted on the shield. The prior art of record does not teach or suggest this arrangement of elements. U. S. Patent numbers 4,796,897; 5,266,977; and 5,585,871 all to Linden, all teach a device to be mounted on an eye shield, however, as the displays in all of these devices are liquid crystal displays, there is no light source taught, further as the purpose of the electrical circuit in the Linden devices is to provide an information display (e.g. elapsed time, heart rate, etc.) to a competitive athlete, as such there is no motivation in the art of record to combine the circuit for e.g. time display on the gaze fixation device of Marshall et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
